

Private LTE Test Terminal

Rugged handheld UE for acceptance tests and troubleshooting of private LTE/5G networks.

Configured

Hardware

RF & wireless measurement

KEY FEATURES

Rugged handheld user equipment for private LTE and 5G networks

Live RSRP, RSRQ, SINR, CQI, PCI and band readings

Built-in throughput, latency and voice/data call tests

Logs and exports results with GPS for acceptance reports

TYPICAL APPLICATIONS

Private network acceptance tests

Coverage verification at critical points

Field troubleshooting by maintenance crews

TECHNICAL HIGHLIGHTS

TECHNOLOGIES	LTE, 5G NR SA/NSA, private and public bands
SIM	Physical SIM and eSIM
RUGGEDNESS	IP65 or better, drop resistant
BATTERY	Full-shift operation
EXPORT	CSV, PDF report

Indicative specifications, confirmed per project.

INDUSTRIES

Mining

Telecom & private networks

Ports & logistics

Energy & utilities

Configured: built on an ITTC platform and adapted to each project.

100% B2B. Supplied through ITTC partner companies specialized in each vertical. Contact us for the partner in your sector, a quotation or a technical briefing.
